

Supplier Partnerships

CSN supplier partnerships offer participating members 100% deviated pricing. CSN works to provide manufacturer programs on an off-invoice basis allowing customers to receive these funds commensurate with the receipt of their distributor and supplier invoice thus lowering both pricing and costs. All manufacturer programs are subject to modification and cancellation.

SUPPLIER PARTNERSHIPS

Frequently Asked Questions

Q: How do restaurants access the specific product offerings within each CSN allowance program?

A: All CSN allowance programs are integrated into the Sysco price management system and are available upon request from your Sysco representative.

Q: Can additional products be added to existing CSN allowance programs?

A: Yes. Please contact Eric Sieb at The Sieb Organization.

Q: Can restaurants utilize other distributors and still receive allowances?

A: No. To receive contract pricing all products must be purchased through Sysco.

Q: Do CSN manufacturer programs also include equipment?

A: Typically, equipment is not provided although there are exceptions. For example Vitality Juice will provide equipment based on defined volume levels. Some manufacturers offer equipment at discount rates i.e. ovens for baking cookies and nachos. Any provided equipment must be utilized exclusively for the supplying manufacturer's products.
